ABSTRACT

The 1979 "Index of Institutions of Higher Education, by State and Congressional District" reports the names of the senators, representatives, and other elected officials of the 96th Congress, their states and congressional districts, and each institution of higher education located in the districts. Also included are the control, type, sex designation of the student body, fall 1977 enrollment, city name, zip code, telephone number, chief executive officer, and 1978-79 undergraduate tuition and required fees of each institution. Control distinguishes between public and private institutions, and private institutions are reported as independent, nonprofit, or profit, or other (affiliated with a religious group). The institutional types are university, four-year and two-year. The sex designation for the student body of each institution is shown as men, women, coeducational, or coordinate--separate colleges for men and women. The index is a companion volume to the "Education Directory, Colleges and Universities, 1978-79." The index reflects the biennial changes in the U.S. Congress and additional information on the institutions listed in the directory. (SW)

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

FOREWORD

This *Index of Institutions of Higher Education, by State and Congressional District* is a companion volume to the *Education Directory, Colleges and Universities, 1978-79.* The *Directory* is published annually; the *Index*, biennially to reflect the biennial changes in the U.S. Congress. The *Index* reports additional information on the institutions listed in the *Directory*.

This 1979 edition reports the names of the Senators, Representatives, and other elected officials of the 96th Congress, their States and congressional districts, and each institution of higher education located therein. Also included are the control, type, sex designation of the student body, fall 1977 enrollment, city name, zip code, telephone number, chief executive officer, and 1978-79 undergraduate tuition and required fees of each institution.

Control distinguishes between public and private institutions. Private institutions are reported as Ind (independent, nonprofit), Profit (organized as profit making), or Other (affiliated with a religious group). The institutional types are Univ (university), 4-year, and 2-year. The sex designation for the student body of each institution is shown as Men, Women, Coed (coeducational), or Coord (coordinate - separate colleges for men and women).

Enrollment figures vary during a given term. The enrollment in this publication is from the 1978-79 *Directory*. Since the *Directory* data are reported after the opening fall enrollment data for 1977 *Fall Enrollment in Institutions of Higher Education*, there are some differences between the two data sets. Zeros appear in the tuition field when an institution has no undergraduate program or when there is no undergraduate tuition or required fees, although the institution has an undergraduate program.

Marjorie O. Chandler, *Acting Director*
Division of Postsecondary and Vocational
Education Statistics

Paul F. Mertins, *Acting Chief*
University and College Surveys and Studies Branch

METHODOLOGY

The data on congressional districts and other institutional data from which this *Index* is derived were obtained from the institutions of higher education in the Higher Education General Information Survey of 1978-79. Those data were entered on the computer files in the fall of 1978. Final data were obtained from corrections to lists circulated to Members of the House of Representatives for verification of districts. The names of the Senators and Representatives were obtained from the "Official List of Members of the House of Representatives and their Places of Residence" supplied by the Clerk of the House of Representatives.

In this *Index*, a branch of an institution which is reported separately for *Directory* purposes is treated as a separate institution and is listed in the congressional district in which it is located. U.S. Service Schools are listed in the State in which they are located. When district boundaries pass through a campus, the business address determines the district.

ABBREVIATIONS

The names of the institutions and city names in this *Index* are limited to 25 and 13 letters and spaces, respectively. Where it is impossible to show the full name of an institution or the full city name within the required limitation, an abbreviated form is shown. Following is a list of the standard abbreviations used.

STATES AND OTHER AREAS

ALA	ALABAMA
ALAS	ALASKA
